QUOTATION INFORMATION SHEET

Since 1910

INSTRUCTIONS

To obtain a complete, no cost estimate for LIGHTNING PROTECTION on your property, please complete this form and return it to Thompson Lightning Protection, Inc., via mail, fax or email (listed above).

In the designated blocks on both sides of this sheet, draw the building views requested. The more accurate your sketch, the more complete our estimate will be. You may prefer to enclose photographs of each view which will be returned to you with our proposal. Please indicate accurately the DIMENSIONS of all areas of the building. Include the LENGTH, WIDTH & HEIGHT of the structure. Include all dormers, side wings, porches, decks, etc. Also, give the heights from the ground to eave line or roof edge, and the height to roof peaks, location of gutters, downspouts, plumbing vents, attic vents and outside water faucets. Complete chimney dimensions are also required. (See No. 6 below)

1) LENGTH	WIDTH	_ HEIGHT	from ground level to eave of building.
